

## Photography and Video Specialist

### Position

- *Highly flexible, part time photography, video, and editing position*
- *Main responsibilities will be to shoot, video and edit content for digital use (online and social media)*
- *Shoots will mostly center around home construction and renovation, and the raw materials that go into them*
- *Looking to duplicate similar work that can be found at [studio-mcgee.com](http://studio-mcgee.com), [beckiowens.com](http://beckiowens.com), and [artisansignaturehomes.com](http://artisansignaturehomes.com), but with a greater emphasis on the construction and materials involved and less on the interior design*
- *Main objective is to become a local leader within our industry for quality educational content and use it as a sales tool to leverage our proprietary products*

### Requirements

- *Own (or have adequate access to) all of the needed equipment and software*
- *Excellent photography and video skills*
- *Ability to think like a business partner and come up with creative ideas and solutions for our long-term strategy*
- *Accountability to hit target completion dates while working autonomously*

### Experience

- *No experience or degree is required, we simply want to see a portfolio of work. If your skills are there, let's talk.*
- *Ideally looking for someone with a deep passion for photography and video who wants to use this as a resume booster to launch into a full-fledged career*

### Company

- *Privately owned St. Louis based company*
- *A leader in the distribution and supply of lumber and building materials*
- *A forward thinking company*
