The TandoTM Difference

Tando represents the creation of something new and completely different from what the building products industry has come to know as exterior cladding.

Tando is an all-star product portfolio that is steeped in history, yet innovative and creative – designed to address the evolving needs of the professional installer, remodeler and homebuilder

Created for Today's Unique Home Exterior Needs

Tando was born out of research that shined a light on an unmet need in the marketplace, a disconnect between what installers and homeowners' are looking for, and what industry standards are calling for. Tando was created to:

- Meet the homeowners need for **low-maintenance** exteriors without compromising on natural beauty
- Turn ordinary walls into breathtaking **mixed material** designs
- Address and mitigate concerns around **moisture management**
- Minimize - if not eliminate – concerns over **labor shortages**

Tando's core value proposition aligns perfectly with these trending market dynamics. Never before has a brand in the exterior cladding category been in a better position to change the face of building exteriors.

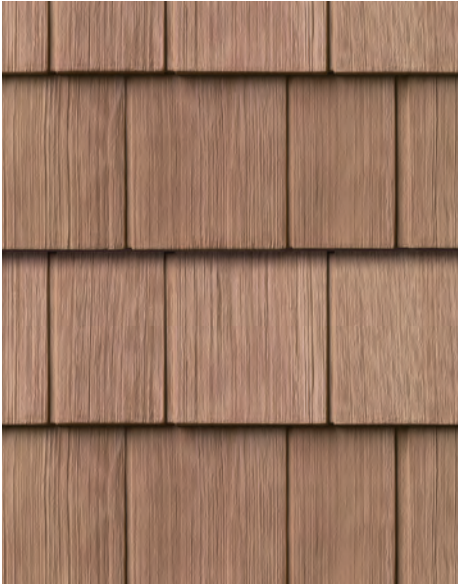

Introducing TandoShake™

In the beginning there was wood — and it was beautiful. But it needed to be maintained to slow down (but never completely stop) the effects of Mother Nature. Then came vinyl, fiber cement and finally TandoShake™:

- ◆ Easier to install and more workable than other options
- ◆ TandoShake™ puts the power of choice and creativity back into the hands of the professional installer
 - Architectural style
 - Texture
 - Wood stain
- ◆ Proprietary technology and processes that deliver a look and feel so real, you'll want to touch it
- ◆ Unparalleled durability
- ◆ Backed by an industry-leading warranty

TandoShake™ offers the largest shake selections in the industry — so broad that our shakes are organized by texture.

RoughSawn Cedar

Simulated woodgrain texture highlights a well-crafted look & feel.

- RoughSawn Cedar Single
- RoughSawn Cedar Dual
- RoughSawn Cedar Staggered

Rustic Cedar

The rustic series introduces a deeper woodgrain texture with subtle real wood imperfections.

- Rustic Cedar 9

Hand Split Shake

This series captures nature's imperfections, highlighting a variety of knots along the rustic woodgrain texture.

- Hand Split Shake

RoughSawn Cedar Single

A classic, lightweight 6 ½-inch exposure in a 90" long product. Single course profile minimizes waste – especially around dormers and peaks – and installs super-fast.

Introducing TandoStone™

In the beginning, there was stone — beautiful, but bulky, heavy, expensive and difficult to work with. Then came stone veneer — also good looking and while easier to work with than boulders, still bulky, heavy, expensive and limited in terms of workability. Then came TandoStone:

- ◆ Lighter and more workable than stone and stone veneer
- ◆ Proprietary technology and processes that deliver a look and feel that is “as real as it gets”
- ◆ Provides pro-installers with a platform to deliver creative and visually arresting exteriors using conventional tools
- ◆ Unparalleled durability that enhances longevity and brilliance
- ◆ Quick and easy one-person installation
- ◆ Eco-Friendly: Consumes less fuel for shipping and less installation waste as compared to stone and stone veneer

Creek Ledgestone - Appalachian Ash

Stacked Stone - Chestnut Hills

Stacked Stone

Your customers love the look and texture of real stone, but often balk at the price. Our Stacked Stone profile does it all at a fraction of the cost of real stone and stone veneer.

Key Features

- ◆ Unmatched realism that requires no annual upkeep
- ◆ Proprietary coating process delivers a grit texture and matte finish for an unparalleled look and feel
- ◆ Impervious to moisture, making it perfect for roofline and ground contact applications
- ◆ Complements a wide range of exterior products, providing stunning mixed material finishes
- ◆ Lightweight design means fast and easy one-person installation
- ◆ No special tools required for craftsmanship and installation
