

C&BTR S4S Red Oak

C&BTR S4S Red Oak boards are finished to the highest quality and ready for your craftsmanship to be made into cabinets, furniture, trim, or your own special project. All Red Oak boards are sold in random lengths, with lengths ranging from 8-16 ft. Red Oak can be bought in 250 board foot units or random length job pack quantities. In these units, you will find primarily all heartwood boards with the occasional sapwood. Heartwood is a pinkish reddish brown and Sapwood is white to light brown. Most boards are straight-grained, with a coarse texture.

Available Sizes:

Item	Lengths	Unit Size	Grade	Finish
4/4 x 4 Oak	R/L 8' - 16'	250 Board Feet	C&btr	S4S

Sand Wood for Even Finishes

Sand every contour and flat area in the direction of the grain with a combination of medium-grit sanding sponges and pads. When necessary, fold 120-grit paper to get into tight cracks.

Test Stain Colors First

Try out the stain on a sample of the same wood you plan to finish. You can create your own custom color by mixing two or three stains (of the same type) together.

Long Strokes = a Smooth Finish

If you can, arrange your trim boards in such a way that after you brush on the desired amount of finish, you can make your last couple strokes in one continuous pass.

Dry-Brush Crevices

Stain will pool in cracks. Use a dry paintbrush to remove it from each piece after it's been completely wiped. Wipe the brush on a clean rag or brush it on newspaper to clean off the stain between strokes.
