PICTURED: DC Building Farmhouse in Goldbeach, Oregon, RusticSeries™, on Allura in Old Cherry.
COVER: Old Trail Heights in Crozet, Virginia, RusticSeries™, on Allura in River Rock.

RusticSeries™ Siding Collection

Wood-look perfection.

Create a picture perfect exterior with our 18 RusticSeries™ colors; select the perfect combination to suit your individual style. RusticSeries™ colors below are shown with a suggested solid color trim to complete the look.

SUBSTRATE	James Hardie Fiber Cement, Allura Fiber Cement, LP Smartside
PROFILE	Lap siding, panels, shake panels
WARRANTY	20-year coating warranty, plus substrate warranty
COLORS	18 designer colors

Fiber Cement and Engineered Wood Profiles Available:

LAP PANEL SHAKE

Pre-finished, corresponding solid color trim available to coordinate with every RusticSeries™ product.

Note: RusticSeries™ replicates the natural beauty of wood. Each substrate and each profile of this product varies in terms of grain pattern and color variance. Due to limitations of the printing process, actual color may vary from the color shown. Refer to a physical sample for approvals.

Composite siding with the appearance of wood.

RusticSeries™ offers the perfect blend of aesthetics, combining the natural beauty and warmth of authentic wood with the durability of fiber cement and composite siding. Our unique factory-coated wood-look finish enhances the visual appeal of your project and ensures you enjoy a long-lasting, beautiful siding solution for years to come.

- 20-year coating warranty
- 18 designer colors
- Lap, panel and shake profiles available
- Factory coated for consistency and durability
- Corresponding trim options available

Chrometallics™ Siding Collection

Re-imagine metallic siding.

A luminous metallic finish by Sherwin Williams on durable fiber cement siding products. A stunning, cost effective and easy to install replacement for aluminum and metal siding systems.

SUBSTRATE	James Hardie Fiber Cement, Allura Fiber Cement
PROFILE	Smooth lap siding, panels
WARRANTY	15-year coating warranty, in addition to substrate warranty
COLORS	8 color options

Move over metal. There's a new chrome in town.

Chrometallics™ is a beautiful and luminous metallic-look siding alternative to replace traditional metal and aluminum siding. Crafted through a close collaboration with Sherwin Williams, this siding emerges as the ideal ultra-modern enhancement for your multi-family, commercial, and single-family endeavors.

- Simple alternative to difficult installation and jobsite handling of metal siding
- Suitable for install with a variety of metal trim styles
- Proprietary technology designed with Sherwin Williams
- Corresponding trim options available

Note: Each substrate and each profile of this product varies in terms of grain pattern and color variance. Due to limitations of the printing process, actual color may vary from the color shown. Refer to a physical sample for approvals.

ColorSelect™ Siding Collection

Your home, your way.

Customize your project and make it truly unique with ColorSelect™. Whether you're working on a multi-family, single-family, or commercial build, give your exterior a distinctive look with durable siding that stands the test of time.

Note: This product is not warranted for siding applications. Wall & Ceiling panels are manufactured from hand selected softwood species. If a blemish free appearance is desired, we recommend putty to fill any natural imperfections and a solid top coat to finish the look.

Wall & Ceiling Collection

Truly Versatile.

Add a custom touch to wine cellars, game rooms, and open living spaces:

- ✓ Exterior porch ceiling
- ✓ Exterior soffits
- ✓ Interior ceiling paneling
- ✓ Interior accent walls

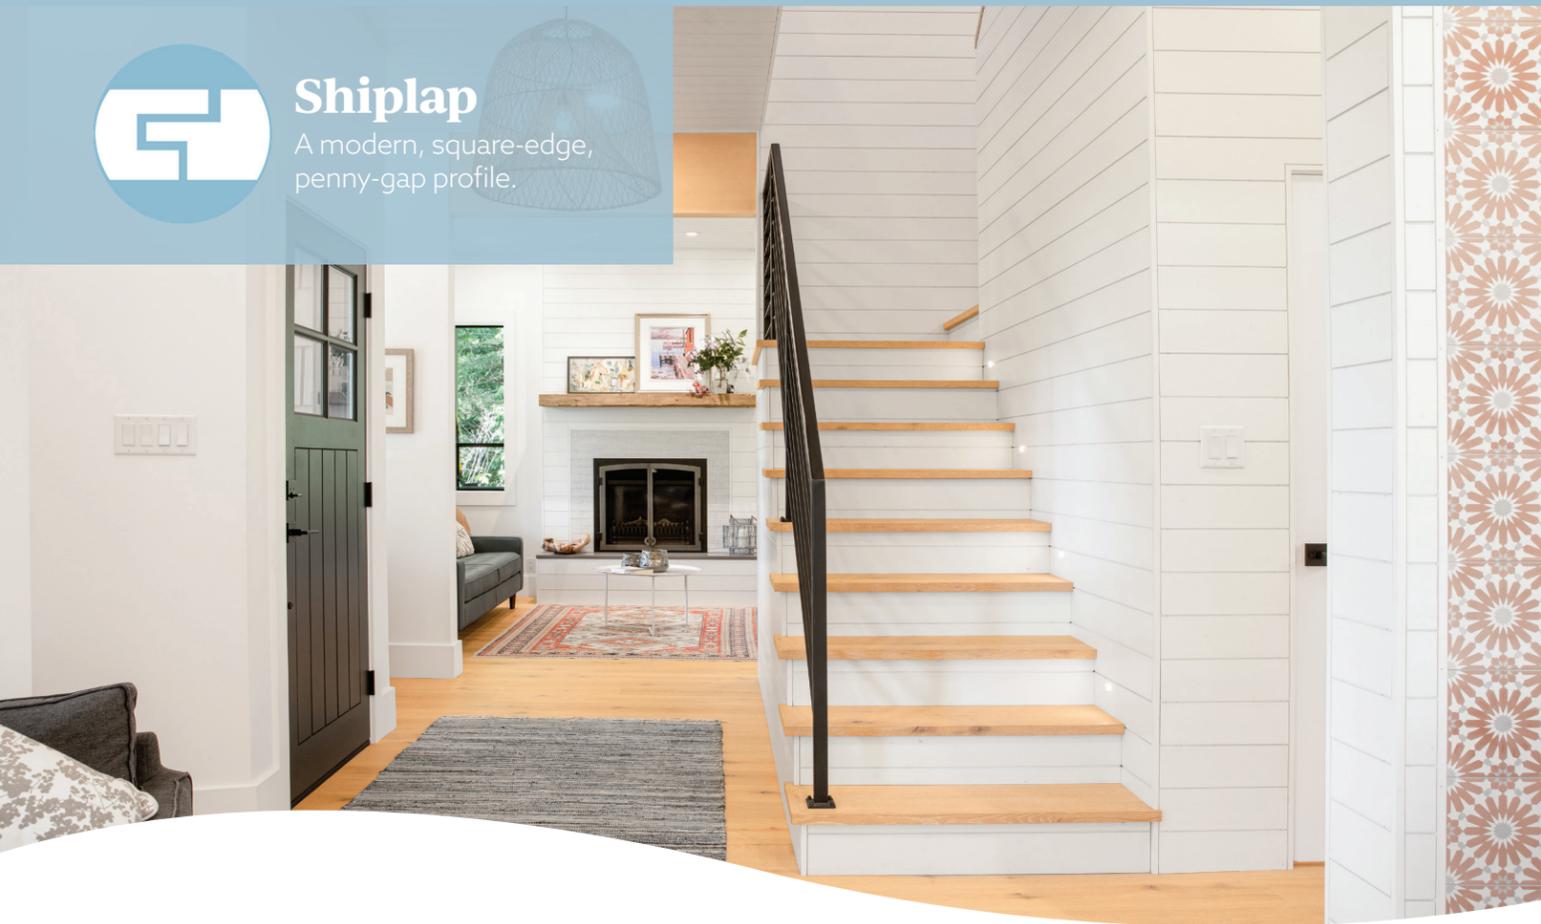

Shiplap

Shiplap

A modern, square-edge, penny-gap profile.

1x6 & 1x8 penny gap look.

Shiplap is a refined classic. Enhance the character of your home with the natural warmth of real, sustainable wood. This profile boasts superior product features and arrives factory coated in white primer, ready for on-site top coating.

- Clear engineered pine for a blemish free appearance
- Factory primed, ready for top coat in the color of your choice
- Tongue and groove profile makes installation simple
- Pre-primed materials save time and labor costs during installation

SUBSTRATE	Clear engineered pine
PROFILE	1x6 or 1x8, penny gap, T&G panel
APPLICATIONS	Interior wall and ceiling
COATING	White primer

Note: This product is for interior ceiling or wall installation only, no exterior applications are recommended. The product should not be stored outdoors, dry storage is required for protection. A finish coat must be applied to product on-site.

WARRANTY	25-year no-rot warranty
COATING	Two step treated sealant technology

One piece, engineered corner solution.

Dealing with corners can pose challenges, especially when joint separation occurs, demanding additional time and labor for fixes. Our distinctive one-piece, engineered corner addresses this concern by significantly reducing the risk of seam separation. Thanks to its engineered design, the product is also conveniently available in designated lengths.

SUBSTRATE	Knotty, appearance grade SPF
WARRANTY	15-year warranty against manufacturer defect
