

What Makes Signature Stain Different?

Our proprietary process integrates **real semi-transparent wood stain** into our Rustic Cedar 6 Shake - the same wood stain that accentuates the nuances of wood grain and features hues and tones found only in nature - offering choices like: **Bark, Fawn, and Acorn - three colors that look as authentic as they sound.**

Another great brand from Derby Building Products Inc.

A Balancing Act As Old As Nature Itself

Historically it's been a balancing act for homeowners; the beauty and authenticity of stained wood is tough to beat ... but that look comes at a cost. The never-ending upkeep associated with real stain exteriors can put a dent in a homeowner's wallet and weekend downtime. Sure, there are options that will wear like iron – the problem is they look like iron too ... until now. **Only Signature Stain incorporates real wood stain into its patented process resulting in the creation of the only shake made with real wood stain that requires no upkeep.** We're not just ending the balancing act, we're changing the way people think about low maintenance building exteriors.

A Favorite Among Contractors

Signature Stain was created with the contractor in mind:

- Lightweight design means fast and easy one person installation.
- 8' length/ single course design ensure less waste during installation.
- Uses same installation tools as real wood
- Installs in any weather – even high wind
- Complements other materials – including fiber cement, engineered wood, stucco, and more.
- Embodies the spirit of craftsmanship providing contractors and installers the ability to turn every project into a showcase for mixed materials/textures design.
- Impervious to moisture making it perfect for roofline applications.

This story doesn't end with the promise of natural beauty and no upkeep that homeowners are demanding. Signature Stain was created with the contractor in mind.

The Natural Choice for Homeowners

Homeowners are attracted to Signature Stain for its core offering: A blend of natural beauty and zero upkeep ... providing them with more time to do the things they want to do ... or nothing at all.

At the Peak of Today's Design Trends

More and more architects, contractors, and homeowners alike are integrating mixed materials/mixed texture designs into home exteriors. Signature Stain is the perfect response to this trend as it not only brings new focus and appreciation to gables and dormers as an element of architectural distinction, Signature Stain is impervious to moisture making it ideal for roofline applications.

Revolutionary Warranties For A Revolutionary Product

It should come as no surprise then that Tando Building Products stands behind Signature Stain with a revolutionary warranty – the likes of which the industry has never seen. It's backed by a fifty-year performance plus warranty that guards against rotting, splitting, decaying, peeling, blistering or chipping; and impervious to moisture, insect damage and fungal decay.

Signature Stain also is protected by a ten year “looks like new” warranty that means our proprietary process ensures our Signature Stain exterior will keep looking like new regardless of exposure to sunlight and extreme weather.

Learn more about these game-changing warranties at **tandobp.com** and request a free sample of Signature Stain while you're there.
